2. REVIEW CA	2. REVIEW CAIRS REPORT OF ACCIDENTS/INCIDENTS:							
See attached incident report:  • Monthly Incident List & Statistical Summary Report (make note of trends etc. For any general CAIRS information that requires discussion or action, please record under "New Business". Any incident specific items and follow up requests are to be listed below)								
(* See Legend o	(* See Legend at end for Priority and Status Codes)							
Item #	Priority	Date	Action Plan (Actions Taken/Need to be taken)	Assigned To	Follow up: Date Pending	Status		

2. REVIEW CA	2. REVIEW CAIRS REPORT OF ACCIDENTS/INCIDENTS:							
(Use CAIRS Incident ID #)								
			- No new CAIRS report					

### 3. REVIEW OF WORKPLACE SAFETY INSPECTIONS (including any changes to equipment, machinery or work processes that may affect the health or safety of workers) Attach inspection checklist(s) and report(s) to these meeting minutes and use this table to record discussion and new recommendation(s) Follow up: Assigned Item# Discussion/Comments/Recommendations Priority Status (Use Inspection #) To Date Pending Lab Inspections - Lab coats need to be available for inspectors E.g. GI-Rix-17/09/13 Mindy & Joanne – Completed for Teaching Labs! Mindy has written up the reports and have been sent out to whoever owns the lab Joanne (deadline to complete action included – on forms for some things In progress Mindy that may take longer, can include "by next inspection" or "by Pat September 2022"). Mostly minor. Bruce Pat – Research Labs: BioSci Building – 3<sup>rd</sup> and 4<sup>th</sup> floor in South wing labs are done. Needs access to West Wing 3<sup>rd</sup> floor lab. Inspection of half of first floor in BioDiv Building. Brett & Bruce & John- Workshop done on Dec. 15<sup>th</sup> (16<sup>th</sup>?) – minor deficiencies Lab safety – Yellow Folders: E.g. GI-TEF3-17/09/14 In Botany they keep it for the safety records/courses

	<ul> <li>In Zoology: Edythe has been keeping them, also digitalized so that Edythe always has access to it.</li> <li>Safety courses vis UBC vs. Lab/Equipment Training from the Department/Lab (e.g. how to use nitrogen gas, centrifuge): This will be an extra step but we have no record of it.</li> <li>New workers form: On Workday – could be redundant? – We have to check what Workday has on record and if we have covered.</li> <li>Currently Workday has part 1 where you can download the forms and sign it, but not required to upload the signed form. Do we need to enforce this now?</li> <li>Field work/field equipment? Still part of the lab so it should be part of the training records → PI should be responsible for that, and we should have records → if we're trusting of the field work, then are we going to be trusting of lab? – maybe revisit next time with Katie P.</li> </ul>	1	In progress
NOTE: These are the inspection numbers (GI- location- date of inspection)
